Dear Manager

I seek you to recommend the following for Western Australia's plastic bag ban:

Of course ban all single use 'shopping bags'

Drink containers that are plastic are surely a big burden on our environment; these should also be banned and made from cartons, tins, glass and the like.

I notice in agricultural use, for example strawberry farming – a lot of plastic sheeting is used to suppress weeds, I think this use of plastic should be banned.

Garden Nurseries' pots etc – they of all people should be using biodegradable containers!

There are other places, I'm sure you'll come to read from the other concerned people of WA.

Thank you. John Schreuders [REDACTED]
