To Whom It May Concern

I am a great believer in not rubbishing Western Australia.

I have reported litterers in the past and will continue to do so.

But I am having a problem with this plastic bag ban.

What about all the plastic that we receive when we purchase items from a department or other stores, wrapped around items?

In this house, we use shopping bags around our house for many things and therefore this house does not agree with a ban.

We have also found that these bags do become brittle and break down over time when left exposed to the sun.

If this matter becomes law and we are no longer allowed the use of plastic bags, then customers should be given the chance of obtaining longer lasting bags for free (a once off) or if not then very, very cheaply (once off) to compensate us.

Instead of being ripped off by money hungry grabbing corporates.
