Strategic Forward Procurement Planning

State agencies must comply with Rule F6, Strategic Forward Procurement Planning, of the Rules.

Rule F6(3)(d) requires agencies to “attach [to their strategic forward procurement plans] from the State agency’s contract register analysis of material contract Variations that have previously occurred, which may inform procurement planning for the relevant period.”

This General Procurement Direction: 2022 / 2 amends Rule F6(3)(d) such that the analysis of material contract variations is not required to be attached to a State agency’s strategic forward procurement plan, but must be supplied to Finance upon request.
